OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, THURSDAY, 20TH NOVEMBER, 1952.

This being the day on which Parliament has been convoked by Proclamation of the Governor General for the despatch of business and the Members of the House being assembled:—

PRAYERS.

Mr. Speaker communicated to the House the following letter which he had received:—

GOVERNMENT HOUSE
OTTAWA
OFFICE OF THE SECRETARY TO THE GOVERNOR GENERAL

4TH November, 1952.

Sir,

I have the honour to inform you that His Excellency the Governor General will arrive at the main entrance of the Houses of Parliament at 3.00 p.m. on Thursday, the 20th November, 1952. When it has been signified that all is in readiness, His Excellency will proceed to the Senate Chamber to open the Seventh Session of the Twenty-first Parliament of Canada.

I have the honour to be,
Sir,
Your obedient servant,

J. F. DELAUTE,
Secretary to the Governor General.
(Administrative)

The Honourable
The Speaker of the House of Commons,
Ottawa.

A Message was delivered by the Gentleman Usher of the Black Rod:—

Mr. Speaker:

His Excellency the Governor General desires the immediate attendance of this Honourable House in the Chamber of the Honourable the Senate.

The House attended accordingly;

And being returned:

The following Members, having previously taken the Oath according to Law, and subscribed the Roll containing the same, took their seats in the House:—

Romuald Bourque, Esquire, Member for the Electoral District of Outremont-St. Jean.

Lucien Cardin, Esquire, Member for the Electoral District of Richelieu-Verchères.

Mr. St. Laurent, by leave of the House, introduced a Bill, No. 1, An Act respecting the Administration of Oaths of Office, which was read the first time.

Mr. Speaker reported, that when the House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a Speech to both Houses of Parliament, and to prevent mistakes, he had obtained a copy, which is as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

You resume your labours on behalf of the Canadian people at a time of continuing international tension. Nevertheless, because of the steadfast resistance of our Canadian forces and their comrades in arms to aggression in Korea and because of the increasing strength of the forces of freedom in Europe, there are signs of a lessening of the danger of an outbreak of war on a global scale.

My Ministers are convinced that a lasting peace can be assured only so long as the combined strength of the free world continues to be built up and maintained.

The sacrifices of those directly involved in the United Nations police action in Korea and the anxieties of their families are an inevitable and most regrettable part of the price we are paying to prevent another world war.

To meet our nation's international responsibilities certain of my Ministers are attending the Seventh Session of the General Assembly of the United Nations.

Because of the continued international tension you will be asked to approve legislation providing for the continuation of the Emergency Powers Act and you will also be asked to provide for the appointment of an Associate Minister of National Defence.

My Prime Minister and my Minister of Finance will attend a meeting of the Prime Ministers of the Commonwealth to open in London later this month to consider important economic and monetary problems.

Her Majesty the Queen has been pleased to set June the second next as the date of Her Coronation.

Arrangements will be made for Canadian representation at the ceremonies and plans are being formulated for the celebration in Canada of this historic event.

Canada has been blessed this year with a record grain crop.

Our economic conditions remain favourable and the level of external trade is high. While the dangers of inflation have not disappeared, pressures have eased and it has been possible to suspend the operation of some of the anti-inflationary measures.

Under an amendment to the Income Tax Regulations the provisions for deferred depreciation which have been in effect since April 11, 1951, will not apply to property acquired after December 31, 1952, nor to taxation years commencing after that date.

Early in 1953 negotiations will be carried on in Washington for a new International Wheat Agreement to replace the existing Agreement which expires on July 31, next. You will be asked to consider amendments to the Canadian Wheat Board Act.

The International Joint Commission has issued an order of approval for the development of hydro-electric power in the International Section of the St. Lawrence River.

Because of this latest step the Canadian Government has informed the Government of the United States it considers that the agreement made in 1941 in respect of the St. Lawrence Seaway has been superseded.

Pending the establishment of the St. Lawrence Seaway authority, an engineering planning staff has been set up in Montreal to begin work on detailed plans for the Seaway, and the Gut Dam in the River near Iroquois is now being removed.

You will be asked to make financial provision for certain improvements to Vancouver Harbour and for engineering studies of that Harbour and of other possible improvements to navigation on the Pacific Coast. You will also be asked to make further provision for the Canso Causeway, the ferry service from North Sydney to Port aux Basques and the terminal facilities at Port aux Basques, and the new ferry service between Yarmouth, Nova Scotia, and Bar Harbor, Maine.

You will be invited to consider a measure to provide for federal co-operation with the Provincial Governments in the conservation of the water resources of Canada.

To give effect to recommendations made by the Standing Committee on Banking and Commerce at the last session of Parliament and to extend its scope your approval will be sought for an amendment to the National Housing Act.

Provision has been made for the insertion in all federal government contracts of clauses prohibiting discrimination on the part of the contractor against any person in regard to employment because of that person's race, national origin, colour or religion.

You will be asked to consider a bill to make similar provisions in respect of employment upon or in connection with any work, undertaking or business that is within the legislative authority of the Parliament of Canada.

A bill designed to provide greater educational opportunities for children whose fathers died as a result of war service will be placed before you.

You will also be asked to approve a Bill to authorize the continuance of the Veterans Benefit Act.

Much has been accomplished since the inauguration in 1948 of the five year National Health Grants programme to strengthen and improve, in co-operation with the Provincial Governments, the health and hospital facilities available to our people. To ensure the continued expansion of this important work, my government proposes to ask you to give consideration to the extension, with certain changes, of this programme of co-operation with the Provincial Governments.

You will have learned with regret that the Library of Parliament has been damaged by fire. The building must soon be vacated, and extensive reconstruction carried out, in order to guard against a repetition of this disaster. These circumstances have made the need for a National Library more immediate and more pressing. My Ministers have therefore taken steps to bring the Library into existence with the least possible delay. A site for the building has been chosen, and you will be asked to make provision for the necessary planning and preliminary work.

At the time television broadcasting was started in Toronto and Montreal in September, the Prime Minister announced that Parliament would be asked to provide for the establishment of three additional public television stations, one in the Maritimes, one on the Prairies and one on the Pacific coast and that active consideration was being given to the role of private enterprise in television broadcasting.

You will accordingly be asked to make provision to enable the Canadian Broadcasting Corporation to establish television stations in the Halifax, Winnipeg and Vancouver areas. My Ministers have indicated to the Canadian Broadcasting Corporation that they are now prepared to consider applications for licences for private television broadcasting stations which may be recommended by the Canadian Broadcasting Corporation to serve areas which could not be served at this time by public stations, with the objective of making television as widely available throughout the country as may be feasible through appropriate co-operation between the Corporation and private agencies.

A measure will be submitted designed to place the Crown in substantially the same position as a private person with respect to liability for acts committed by its servants, for breach of duty arising out of the ownership or occupa-

tion of property, and for salvage claims, and also to confer upon provincial courts jurisdiction concurrent with that of the Exchequer Court of Canada to entertain certain classes of claims.

Measures respecting the payment of rural mail carriers will be submitted for your consideration.

To meet conditions resulting from the entry of the Province of Newfoundland into Confederation and the introduction of new methods of fishing off the Atlantic coast, a Bill to revise the Customs and Fisheries Protection Act will be placed before you. You will also be asked to consider legislation to implement the International Convention for the High Seas Fisheries of the North Pacific Ocean.

A bill will be introduced to place the Historic Sites and Monuments Board of Canada on a statutory basis.

The measure to revise and consolidate the Criminal Code will be re-introduced at this session.

You will be asked to consider legislation to amend the Trust Companies Act and the Loan Companies Act to authorize companies incorporated thereunder to invest in bonds issued by the International Bank for Reconstruction and Development.

You will also be asked to consider legislation to provide for the incorporation by Parliament and for federal supervision of co-operative credit societies desiring to operate in more than one province under such legislation.

You will be asked to consider revisions of the Civil Service Superannuation Act; the Food and Drugs Act; the Yukon Act; and the legislation respecting Trade Marks.

Other measures to be introduced will include amendments to the Trans-Canada Air Lines Act, the Merchant Seamen Compensation Act, the Canadian Citizenship Act, the Statistics Act, the Indian Act, the Farm Improvement Loans Act, the Prisons and Reformatories Act, the Companies Creditors Arrangement Act, the Canada Evidence Act, the Judges Act, the Canada Shipping Act, the Civil Service Insurance Act, the Canadian Overseas Telecommunication Corporation Act and to the Territorial Lands Act.

Members of the House of Commons:

You will be asked to make provision for all essential services, and for national defence and the meeting of our obligations under the United Nations Charter and the North Atlantic Treaty, during the next fiscal year.

Honourable Members of the Senate:

Members of the House of Commons:

May Divine Providence bless your deliberations.

Mr. Speaker presented the Report of the Joint Librarians of Parliament, which is as follows:—

To the Honourable the Speaker of the House of Commons:

The Joint Librarians of Parliament have the honour to submit their report for the year 1952.

The fire which occurred in the Library on August 4th was a disaster which was stopped short of catastrophe mainly through the fire-fighting abilities of the Ottawa Fire Department. The difficult location and dangerous nature of the blaze demanded courage and skill of a high degree on the part of the firemen. There was imminent danger of the library building being completely destroyed, but the fire damage was restricted to the roof and dome. The extreme danger that the vast collection of books, newspapers and documents might be lost was limited to a point where no books were actually burned, although many thousands were damaged by water, humidity, mildew and mould.

It is estimated that approximately 200,000 gallons of water flowed through the sprinklers into the library. This deluge resulted in varying degrees of damage to an estimated 150,000 volumes comprising many subject classes of books. Most of these volumes were removed from the library building for drying and preparation for rebinding. Up to November 15th 27,000 books were sent to the binders, and it is estimated that 18,000 remain to be sent. These books, on their return from the bindery, are being placed in storage pending the restoration of the Library building, and the probable construction of a National Library building. It is expected that many thousands of volumes will be transferred to the National Library at the appropriate time.

An agreement for the rebinding of books has been concluded with Harpell's Press Co-operative, Gardenvale, Quebec, under which most of the damaged volumes will be restored or rebound at an average cost of approximately \$2.50 per volume. Four hundred volumes of newspapers are in process of being rebound or repaired by Laflamme Freres Enregistre, Book Binders, Ottawa, at an average cost of \$14 per volume. It is also expected that many volumes will be sent in the near future to the Queen's Printer for special rebinding or repairing.

During the present Session the Library will operate on a restricted scale in the Library Building. The Joint Librarians have made arrangements to provide limited reference service to Parliament, and have replaced on the shelves the following classes of books: general reference works, statutes, parliamentary papers, journals, law books, works dealing with parliamentary procedure and history and constitutional law, newspapers, periodicals, works on finance, taxation, economics, Canadian history, and some others. Many of these classes of books will remain incomplete for some months until damaged volumes are returned from the bindery.

The Joint Librarians take this opportunity of recording officially their acknowledgments and thanks for assistance received from the following: the Honourable the Speaker of the Senate, the Honourable the Speaker of the House of Commons, the Sergeant-at-Arms, the Chief of the Protective Staff, and officers and men of the Protective Staff, the Registrar and officials of the Supreme Court, and officials of the Department of Public Works, the Department

of National Defence, the Public Archives of Canada, the National Research Council, the Forest Products Laboratories Division of the Department of Resources and Development, the Queen's Printer, and the Executive Secretary of the Canadian Library Association. The Joint Librarians have sent out several hundred letters of thanks to individuals and leaders of organizations in Ottawa and Hull whose voluntary and extensive assistance was most helpful in the salvaging operations.

The Joint Librarians are proud to bring to the attention of Honourable Senators and Members of Parliament the energy and devotion demonstrated by members of the staff of the Library who laboured most effectively and at great length during the emergency. At the time of the fire and for a long period afterwards the Parliamentary Librarian was absent because of serious illness, and he and the General Librarian wish to pay tribute to the Assistant Librarian, Mr. Robert M. Hamilton, for the immeasurable service he has rendered in helping to restore order in the Library. The Joint Librarians were fortunate in being able to obtain for four days during the height of the crisis the services and expert advice of Mr. Alvin W. Kremer, Keeper of the Collections of the Library of Congress, Washington. Mr. Kremer's services were made available without charge by the Librarian of Congress, Dr. Luther Evans. The Joint Librarians record with pleasure this act of international courtesy and generosity.

A submission was made on September 10th to the Treasury Board for funds with which to meet expenses arising out of the emergency. On September 17th Treasury Board authorized an allotment of \$90,000 from the General Salaries Vote and Miscellaneous and Unforeseen Vote. Particulars regarding these votes are contained in a letter from the Secretary of the Treasury Board, which is attached as Appendix No. 8 herewith. Estimates to reimburse these general votes will be submitted to Parliament by the Joint Librarians for consideration by Honourable Senators and Members of the House of Commons during the present Session in Further Supplementary Estimates 1952-1953.

The Joint Librarians were appointed in September to represent the Library on the Advisory Committee on the Library of Parliament and National Library, and approved the report submitted to the Cabinet.

In the expectation that Honourable Senators and Members of the House of Commons will be interested in many aspects of the fire which cannot conveniently be presented at length in this report the Joint Librarians submit for their attention, and request permission to table, the following reports and appendices. These deal with such subjects as the probable cause of the fire, the extent of the physical damage done to the building, the actions of various officers acting in their official capacities in dealing with contingencies as they arose, a summary of the measures carried out by the staff of the Library and members of other government departments in salvaging the damaged books, and, a statement regarding finances.

with power to send for persons, papers and records and to examine witnesses; and that notwithstanding Standing Order 65, the committee shall consist of twenty-six Members to be designated by the House at a later date.

And a Debate arising thereon;

Mr. Claxton, seconded by Mr. Pearson, moved in amendment thereto:— That the motion be amended by inserting after the words "March 31, 1950," in the fourth line thereof, the following:—

"and initially to give priority in their examination to the expenditures and commitments of the Canadian Army Works Services as dealt with in the Report of G. S. Currie, Esquire, Chartered Accountant, tabled in the House of Commons on December 15, 1952,"

And the question being proposed;

A point of Order was raised by Mr. Knowles, that the proposed amendment was out of order on the ground that no notice had been given and also that the amendment was unnecessary because the power to send for persons, papers and records was contained in the Prime Minister's motion.

Mr. Speaker ruled that the Point of Order was not well taken in that the amendment, if adopted, would not empower the committee to do something which it could not otherwise do, but that it would direct the committee to consider certain expenditures and commitments referred to in the "Currie" Report which the committee might not otherwise consider and that such instructions could be given at this time.

The hour devoted to Private and Public Bills having expired;

Debate was then resumed on the proposed motion of Mr. St. Laurent, seconded by Mr. Abbott,—That a select committee be appointed to continue the examination of all expenditure of public moneys for national defence and all commitments for expenditure for national defence since March 31, 1950, and to report from time to time their observations and opinions thereon, and in particular, what, if any, economies consistent with the execution of the policy decided by the government may be effected therein, with power to send for persons, papers and records and to examine witnesses; and that notwithstanding Standing Order 65, the committee shall consist of twenty-six Members to be designated by the House at a later date.

And on the proposed motion of Mr. Claxton, seconded by Mr. Pearson, in amendment thereto: That the motion be amended by inserting after the words "March 31, 1950", in the fourth line thereof, the following:—

"and initially to give priority in their examination to the expenditures and commitments of the Canadian Army Works Services as dealt with in the Report of G. S. Currie, Esquire, Chartered Accountant, tabled in the House of Commons on December 15, 1952,"

And the Debate continuing;

Mr. Pearkes, seconded by Mr. Harkness, moved in amendment thereto: That the motion be further amended as follows:

(a) By striking out the words of the amendment, namely:

“and initially to give priority in their examination to the expenditures and commitments of the Canadian Army Works Services as dealt with in the Report of G. S. Currie, Esquire, Chartered Accountant, tabled in the House of Commons on December 15th, 1952”, and,

(b) by adding at the end of the motion as amended the following words:

“and inasmuch as the Report of G. S. Currie on the Department of National Defence is a matter of prime importance to the people of Canada this House is of the opinion that the said G. S. Currie should be authorized to continue his enquiries and conduct a similar investigation to that already undertaken into all aspects of organization, accounting and administration of the Department of National Defence.”

A point of Order was raised by Mr. St. Laurent that the proposed sub-amendment was out of order in that part (a) was an expanded negative, and part (b) proposed an alternative to the setting up of the Committee which was not the kind of proposal that could be put before the House by way of an amendment.

Mr. Speaker ruled the subamendment out of order on the ground that the (a) clause of the subamendment purported to strike out all the words of the amendment and to insert other words which were not relevant in any way to the words that would be struck out, and further that the (b) clause was foreign to the motion before the House as it proposed that the said G. S. Currie be authorized to continue his inquiries while the motion before the House would set up a committee to do certain things.

And the Debate still continuing, the said Debate was, on motion of Mr. Knowles, adjourned.

At ten o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, until tomorrow, at 2.30 o'clock, p.m.

and finds that the requirements of Standing Order 68 have been complied with.

Mr. Fulton, seconded by Mr. Fraser, moved,—That, in the opinion of this House, consideration should be given to the advisability of appointing a joint committee of both Houses of Parliament for the purpose of studying and recommending legislation or other measures under which the growing volume of filthy literature circulating in Canada can be effectively dealt with, without at the same time improperly restricting the freedom of the press or of genuine literary or artistic expression.

And after Debate thereon; the question being put on the said motion, it was negatived on the following division:—

A point of Order was raised by Mr. Winters that as the Bill forecast by the proposed Resolution will not embrace irrigation or irrigation policies, debate of a measure such as that envisaged by the South Saskatchewan project would not be relevant to the measure before the House.

OTTAWA, TUESDAY, 3RD FEBRUARY, 1953.

PRAYERS.

Mr. MacLean (Cape Breton North and Victoria), from the Standing Committee on Standing Orders, presented the First Report of the said Committee, as follows:

In accordance with Standing Order 99(2), your Committee has considered the petition of J. L. Ilsley and others praying for an Act to incorporate "Canadian Disaster Relief Fund, Incorporated" together with the Eighteenth Report of the Examiner of Petitions presented on January 28, 1953, informing the House that the requirements of Standing Order 95 respecting publication of notice have not been complied with.

The petitioners are seeking incorporation for the purpose of managing and distributing the Canadian Disaster Relief Fund to meet emergencies and needs arising in Canada from flood, fire, tempest, earthquake, pestilence or other disaster, to mitigate loss and suffering caused thereby, to assist in repairing damage therefrom and to re-habilitate persons who have suffered injury or loss by reason thereof.

The subject matter of the proposed legislation has already received wide publicity and, in the opinion of your Committee, no interests will suffer or no rights will be injuriously affected should the bill based on this petition be allowed to proceed without publication of notice in the *Canada Gazette*.

Your Committee therefore recommends:

GOVERNMENT HOUSE

Ottawa 2.

OFFICE OF THE SECRETARY TO THE GOVERNOR GENERAL

February 6th, 1953.

Dear Mr. Speaker,—

Immediately upon receipt of your letter of the 4th February, the text of the Resolution passed by the House of Commons on Monday the 2nd February, was forwarded to the Private Secretary to The Queen to be laid before Her Majesty.

Word has now been received from the Private Secretary to The Queen stating that Her Majesty greatly appreciates this Resolution and that he was commanded to convey to the Governor General The Queen's sincere gratitude for the sympathy and generous offer of help to which this Resolution gives expression.

Yours sincerely,

LIONEL MASSEY,
Secretary to the Governor General.

The Honourable W. Ross Macdonald, Q.C.,
Speaker of the House of Commons,
Ottawa, Ontario.

ROYAL NETHERLANDS EMBASSY

OTTAWA, February 12th, 1953.

Dear Mr. Speaker,—

You were so extremely kind to send me with your letter of February 4th copies of the House of Commons Debates of February 2nd and 3rd in which reference was made to the dreadful disaster which has befallen my country, as well as a copy of your letter to the Honourable Lester B. Pearson, in respect to the resolution referred to in the Debates.

I need not emphasize how grateful my Government and people are for the sympathy and help from other friendly nations, last but not least from Canada.

On Sunday last Her Majesty Queen Juliana spoke to her people on the occasion of our National Day of Mourning and the Queen said:—

“The greater the misery caused by the losses we have sustained, the more deeply do we feel the fraternity of mankind which has found an echo in the breasts of men and women far beyond the confines of our country. Men of the free world have responded to the fierce tides with a mighty tide of Christian charity”.

Yesterday a motion in Parliament was proposed, unanimously carried, and worded as follows:—

“The Second Chamber of the States General deeply touched by the tide of compassion and love for his neighbour, as well as feelings of unity, which has been so strikingly demonstrated not only by the people of The Netherlands but which has also come to us across our borders as a demonstration of the unity of peoples, express to all friendly Governments and peoples their gratefulness which they hope they will be able to prove themselves worthy of for the benefit of the world”.

Very sincerely yours,

A. H. J. LOVINK.

The Honourable W. Ross Macdonald,
Speaker of the House of Commons,
Ottawa.

The House resolved itself into Committee of the Whole to consider a certain proposed Resolution to revise and consolidate the Yukon Act.

(In the Committee)

The following Resolution was adopted:

Resolved, That it is expedient to present a measure to revise and consolidate the Yukon Act and inter alia to delete certain provisions in the Act which are being brought within the legislative jurisdiction of the Territorial Council; to increase the amounts of the indemnity and living allowances of members of

the Council of the Yukon Territory to bring them more in line with those that may be paid to members of the Northwest Territories Council; to further define the legislative powers of the Commissioner in Council; to provide for the administration of Justice in the Territory in the manner provided for the administration of Justice in the Northwest Territory by the Northwest Territories Act; and finally to provide that the beneficial use of certain lands be appropriated to the Territory and be subject to the control of the Commissioner in Council.

We, Your Majesty's dutiful and loyal subjects, the Commons of Canada, in Parliament assembled, approach Your Majesty with the expression of our deep and heartfelt sorrow at the demise of Her Majesty Queen Mary.

We mourn the loss of Her Majesty whose kindness, graciousness and great influence for good over so many years won the respect and admiration of us all, and there has come to each of us a sense of personal bereavement which, we say it with all possible respect and duty, makes Your Majesty's sorrow our own.

We pray that the God of consolation may comfort Your Majesty and the members of the Royal Family in your bereavement, and that Your Majesty may be long spared to continue the eminent public services of your great predecessors.

On motion of Mr. St. Laurent, it was ordered,—That the said Address be engrossed.

On motion of Mr. St. Laurent, it was resolved,—That a Message be sent to the Senate informing their Honours that this House has passed an Address to Her Most Excellent Majesty the Queen, expressing the deep regret and heartfelt sorrow of the House at the demise of Her Majesty Queen Mary and requesting their Honours to unite with this House in the said Address, hereto attached.

Ordered,—That the Clerk do carry the said Message to the Senate.

The Clerk of the House laid upon the Table the Thirty-first Report of the Clerk of Petitions, stating that he had examined the following petition presented on March 24, praying for the passing of an Act to grant a divorce and to dissolve the marriage of the petitioner, and finds that, while this petition complies with the requirements of Standing Order 68, it has been presented after the time specified by Standing Order 92, and, for this reason, it should not be received, namely:

Of Agnes Jackson Stroud Earle, now residing in Montreal, Quebec, wife of Ralph Simpson Earle of Morin Heights, Quebec.—*Mr. Winkler.*

Mr. Speaker informed the House that the Clerk had laid on the Table the Thirtieth Report of the Examiner of Petitions for Private Bills as follows:

The Examiner of Petitions for Private Bills has the honour to present the following as his Thirtieth Report:—

Complying with the provisions of Standing Order 99, Section 3, your Examiner has taken into consideration Bill No. 269 (Letter H-9 of the Senate), intituled: "An Act for the relief of Agnes Jackson Stroud Earle", which was given first reading on March 24, 1953, whereas the petition relating thereto was only reported on by the Clerk of Petitions on March 25, 1953.

Inasmuch as this petition was presented after the time specified by Standing Order 92 and not received, your Examiner finds that the said petition and Bill No. 269 based thereon should be referred to the Standing Committee on Standing Orders.

Mr. Dickey, Parliamentary Assistant to the Minister of Defence Production presented,—Return to an Order of the House of March 23, 1953, for a Return showing:—1. Mr. MacNaught, Parliamentary Assistant to the Minister of Fisheries, laid before the House,—Copy of an Order in Council passed under the provisions of the Deep Sea Fisheries Act, Revised Statutes of Canada 1927, Chapter 74, as follows:

Order in Council P.C. 1953-387, approved March 19, 1953: Authorizing the distribution of Fishing Bounty Payments for the year 1952-53 under the provisions of the said Act.

On motion of Mr. Winkler, the following Report of the Civil Service Commission respecting the organization of the Library of Parliament, laid on the Table of the House on Tuesday, March 24, 1953, was approved:

CIVIL SERVICE COMMISSION OF CANADA

To the Honourable the Members of the Houses of Parliament

The Civil Service Commission, in accordance with the provisions of Sections 9 and 61 of the Civil Service Act, is pleased to join with the Library of Parliament in recommending the following report for approval:

It is recommended that the organization of the Library of Parliament be changed by the creation of a permanent position of Librarian, Grade 2, LP-A-15, effective January 1, 1953.

The new position LP-A-15, Librarian, Grade 2, is to be filled by the promotion of Mr. Stewart Rogers, at present a Librarian, Grade 1 in position LP-A-12, effective January 1, 1953. Mr. J. W. MacLeod, at present employed in an exempt position, is to be appointed to position LP-A-12, Librarian, Grade 1, effective from the date it is vacated by Mr. Rogers.

In order that Mr. J. W. MacLeod may not have to suffer a reduction in salary, it is recommended, under Section 59 of the Civil Service Act, that position LP-A-12, Librarian, Grade 1, be exempt from Section 13 of the Act in order to provide for the appointment of Mr. MacLeod at a rate in the salary range as near as possible to that which he is at present receiving, effective from the date he is appointed to the position, such exemption to apply only to the appointment of Mr. MacLeod but that in all other respects the position be subject to the provisions of the Civil Service Act.

Attached hereto is a copy of a report in connection with the above.

C. H. BLAND,
Chairman.

A. J. BOUDREAU,
Commissioner.

On motion of Mr. Winkler, it was ordered,—That the petition of Agnes Jackson Stroud Earle for a bill of divorce, presented on March 24, 1953, together with the report made thereon by the Clerk of Petitions on March 25, 1953, and the Thirtieth Report of the Examiner of Petitions presented on March 25, 1953, be referred to the Standing Committee on Standing Orders for such recommendations as may be deemed advisable.

The House resumed consideration in Committee of the Whole of a certain proposed Resolution to amend the Emergency Powers Act.

(In the Committee)

The following Resolution was adopted:—

Resolved, That it is expedient to introduce a measure to amend The Emergency Powers Act to provide for the continuation of the Act for a further period of one year, that is from the thirty-first day of May, 1953, to the thirty-first day of May, 1954.

The said Resolution was reported, read the second time and concurred in.

Mr. Garson, for Mr. St. Laurent, by leave of the House, presented a Bill, No. 279, An Act to amend The Emergency Powers Act, which was read the first time and ordered for a second reading at the next sitting of the House.

No. 74

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, THURSDAY, 26TH MARCH, 1953.

PRAYERS.

A point of Order having arisen from time to time on the question of debating the motion: "That Mr. Speaker do now leave the Chair", for the House to resolve itself into Committee of the Whole on a proposed Resolution:

MR. SPEAKER'S RULING

Mr. SPEAKER: Recently honourable Members discussed the proper construction of Standing Order 60. The House will recall that on the 18th June, 1952, I made a ruling with respect to this Standing Order which was to the effect that on the second day, that is, when the Order is called for the Speaker to leave the Chair for the House to resolve itself into Committee of the Whole on a resolution dealing with money, a full discussion of the resolution is not in order. However, in view of the ruling made by Mr. Speaker Glen in February, 1942, I ruled that a debate was permissible provided it was directed to the negative of the motion. When that ruling was made some honourable members expressed doubt whether it could be put into effect. It was not long before I came to the same conclusion and I think all Members agree that my ruling of the 18th June last must be revised. Most Members, if not all, who spoke recently on the point of order were of the opinion that there should be no debate at all or that a full debate should be allowed on the resolution.

Standing Order 60 was adopted in the House of Commons in 1867 in almost the identical wording it has today. Debates took place from time to time over the years on the second day. In 1905 Mr. Sproule, who later became Speaker under the administration of the late Right Honourable Sir Robert Borden, objected to this procedure. He is reported at page 319 of *Hansard* of that year as follows:

"On Friday next will not the Speaker have to leave the Chair, in compliance with the motion just made, and allow the House to go into Committee of the Whole without a motion to that effect being made again, and will not this preclude any debate before the House is in Committee?"

However, his opinion did not prevail and debates continued to take place until 1912. Between 1912 and 1919 there were 140 resolutions and I can find only two instances where any debate took place. On October 15th, 1919, pages 1013-14 of *Hansard*, Mr. Speaker Rhodes who was Speaker under the administrations of the Right Honourable Sir Robert Borden and the Right Honourable Arthur Meighen, ruled that the motion was not debatable but that a vote could take place upon it. His ruling was generally respected until about the year 1930 after which the number of debates on this motion gradually increased.

It is to be noted that in February, 1942, Mr. Mackenzie King objected to a debate at this stage and Mr. Speaker Glen gave the ruling to which I have referred. Subsequently, in 1946, Mr. King again contended that the motion was not debatable and quoted a communication from Dr. Arthur Beauchesne to that effect. See *Hansard*, page 761 of that year.

Along with Standing Order 60 it is necessary to consider Standing Order 38. It is to be noted that when Sir Robert Borden sponsored the resolution amending Standing Order 17(a), which is now our Standing Order 38, in an amended form, he is quoted at page 7406 of *Hansard* of April 9, 1913, as saying:

"What we have sought to do is to provide that all substantial motions, which bring into question the propriety of passing any Bill, measure, or vote, shall be debatable in the future as they have been in the past, but that purely formal motions, which, under the existing rules, would be used only for dilatory purposes, shall not in future continue to be debatable. That has been our object, and we propose to carry it into effect in a reasonable way."

From these words there seems to be no doubt that the intention of Sir Robert Borden while safeguarding the freedom of speech was to eliminate the occasions on which repetitious debate could arise. That, I consider, to be "the spirit" in which Standing Order 38 was adopted.

The resolution is not debatable on the first day by virtue of clause 1(a) of Standing Order 38. On that day the House makes a decision that the resolution should be considered by a Committee of the Whole House at the next sitting. I must determine whether debate is permissible on the second day. It seems to me that a debate on the resolution at this stage cannot be permitted. The House has already decided that it should go into Committee at the next sitting to consider the resolution. It is surely, therefore, wrong for the House to consider at the said next sitting the resolution with the Speaker in the Chair on the following grounds:

(1) That once a question has been decided by the House it cannot be reopened in the same session. See Beauchesne's Third Edition, Citation 332.

(2) That when a resolution has been referred to a Committee of the Whole House that resolution cannot be debated in the House until the Committee has reported.

What debate if any, can be permitted on the second day, or is a further motion of any kind required when the Order under "Government Orders" is called "that the Speaker do now leave the Chair for the House to resolve itself into Committee of the Whole on the following resolution . . .". As stated above, since the House has already made a decision that that particular resolution is to be considered by the Committee it is obviously irregular to have any further debate on that point. Therefore, the only possible subject-matter for debate is as to whether the Speaker should leave the Chair at that particular time, or later that day, or on some other day. However, even that subject matter is not debatable. Standing Order 17(2) provides that "whenever Government business has precedence, Government orders may be called in such sequence as the Government may think fit" and of course it is the practice for the Government to announce the night before just what business will be called the following day. In this way no one is taken by surprise.

From the above it would appear that the motion that the Speaker do now leave the Chair for the House to resolve itself into Committee of the Whole on a money resolution moved on the second day under the provisions of Standing Order 60 is purely a procedural motion. It stands on the Order of Proceedings for the Day and were it other than a procedural motion it would, under Standing Order 38, be debatable. But procedural motions are not debatable. This was decided by Mr. Speaker Lemieux on June 18th, 1923. (See *Hansard* page 4013 of that year). He said:

"A bill is regularly on its way to the Committee of the Whole House and the motion has been made that I do now leave the Chair. It is a purely formal motion."

It is doubtful if any motion at all is really necessary but as Mr. Speaker Lemieux has ruled, and Mr. Speaker Rhodes has also ruled that the motion should be made, and that, though the motion is not debatable, the Members have a right to vote thereon, I will follow their rulings.

Accordingly in future once the House has decided that the Speaker will leave the Chair at the next sitting for the House to resolve itself into Committee of the Whole to consider a resolution I will put the motion when the Order is called, but the motion will not be debatable although Members will have the right to vote thereon.

Mr. Stuart (Charlotte), from the Standing Committee on Standing Orders, presented the Fourth Report of the said Committee, as follows:

Your Committee submits its findings and recommendations in respect of the following petitions for private bills presented after the time limit specified by Standing Order 92:

1. Margaret Searle Pfeffer—(Divorce).

A petition in this case was duly presented last session but was not proceeded with because the petitioner lacked the necessary funds. When it was decided to renew the application this session, the solicitor for the petitioner overlooked the fact that a new petition should be presented in the House of Commons.

Your Committee recommends that Standing Orders 92 and 93(3)(a) and (c) be suspended in relation to this petition and that the said petition be read and received.

2. Claude Arlington Root—(Divorce).

At the request of Counsel for the petitioner your Committee recommends that leave be granted to withdraw this petition.

3. Agnes Jackson Stroud Earle—(Divorce).

The Montreal solicitor in this case failed to file a petition in the House of Commons within the time limit although a petition had been filed in the Senate. Your Committee feels satisfied that the petitioner was in no way responsible for the delay.

The Committee also took into consideration the Thirtieth Report of the Examiner of Petitions, presented on March 25, 1953, informing the House that the Bill based on this petition had been given first reading before the petition had been reported on.

Your Committee recommends that Standing Orders 92 and 93(3)(a) and (c) be suspended in relation to this petition and that the petition be read and received.

By leave of the House, on motion of Mr. Stuart (Charlotte), the said Report was concurred in.

Mr. Bradley, a Member of the Queen's Privy Council, presented,—Return to an Order of the House of February 18, 1953, for a Return showing:—1. How many properties or portions of properties under rent by any branch of the Canadian Government during the fiscal years 1949-50, 1950-51, 1951-52, and from April 1st to December 31st, 1952, were sublet to other than branches of the Federal Government, to whom and at what rate of rental in each case?

2. Where are these properties located?

3. What is the rental paid by the Government in each case and from whom was the property rented?

And also,—Return to an Order of the House, of February 25, 1953, for a Return showing:—1. What was the value of exports from Newfoundland ports, during the fiscal year 1951-52?

2. What was the value of imports consigned to ports in Newfoundland, during the fiscal year 1951-52?

3. What quantity of freight was carried by the Canadian National Railways to North Sydney for shipment to points in Newfoundland, during 1949-50, 1950-51, 1951-52?

4. What quantity of freight was carried by the Canadian National Railways from points in Newfoundland to North Sydney for shipment, during the same period.

Mr. McCusker, Parliamentary Assistant to the Minister of National Health and Welfare, presented,—Return to an Order of the House of February 16, 1953, for a Return showing:—How many of the 325,000 disabled persons in Canada are in the following classifications (a) over 70 years of age; (b) over 65 years of age; (c) blind, not included in (a) and (b); (d) war veterans not included in (a) (b) or (c); (e) others not included in the foregoing?

The following Question on the Order Paper was passed by the House as an Order for Return, under subsection 4 of Standing Order 44, and an Order of the House was issued to the proper officer accordingly:—

By Mr. Higgins:—1. How many motor cars were manufactured in Canada in 1952?

2. What was the value of same?

3. How many motor cars were imported into Canada in 1952?

4. From what countries were they imported and what was the value of the cars imported from each such country?

5. How much was collected in customs duties on the cars so imported?

6. How much in taxes was collected on the cars manufactured in Canada in 1952?

7. How many motor cars were exported from Canada in (a) 1951; (b) 1952?

The Order being read for the second reading of Bill No. 279, An Act to amend The Emergency Powers Act;

Mr. Garson, for Mr. St. Laurent, moved,—That the said Bill be now read the second time.

After Debate thereon, the question being put on the said motion; it was agreed to, on the following division:

“MAY IT PLEASE YOUR HONOUR:

“The Commons of Canada have voted Supplies required to enable the government to defray certain expenses of the public service.

“In the name of the Commons, I present to Your Honour the following Bills:—

“An Act for granting to Her Majesty certain sums of money for the public service of the financial year ending the 31st March, 1954.

“An Act for granting to Her Majesty certain sums of money for the public service of the financial year ending the 31st March, 1953.

“To which Bills, I humbly request Your Honour's Assent.”

The Clerk of the Senate, by Command of the Deputy of His Excellency the Governor General, did thereupon say:—

“In Her Majesty's name, the Right Honourable the Deputy Governor General thanks Her Loyal Subjects, accepts their benevolence, and assents to these Bills.”

The House resumed Debate on the proposed motion of Mr. Abbott: That Bill No. 225, An Act to amend the Excise Tax Act, be now read the second time.

And on the proposed motion of Mr. Drew, seconded by Mr. Green, in amendment thereto: That Bill No. 225 be not now read the second time but that it be resolved that in the opinion of this House consideration should be given to the introduction of legislation which would provide for the exemption of all municipal councils and school boards from the payment of excise taxes, including the 10% sales tax, on all their purchases of machinery and other equipment, which taxes impose a particularly heavy burden on municipal taxpayers because of the Government's continuing failure to introduce legislation providing for taxation of all Government properties in municipalities on the same basis as that of ordinary municipal taxpayers.

Mr. Speaker ruled the proposed amendment out of order in that it was either the equivalent to a negative of the main motion or it would approve the second reading of the Bill with certain conditions attached.

And the question again being proposed on the main motion: That Bill No. 225, An Act to amend the Excise Tax Act, be now read the second time.

Mr. Macdonnell (Greenwood), seconded by Mr. Green, moved in amendment thereto: That Bill No. 225 be not now read the second time but that it be resolved that in the opinion of this House consideration should be given to the introduction of legislation which would provide for the exemption of all municipal councils and school boards from the payment of excise taxes, including the 10% sales tax, on all their purchases of machinery and other equipment.

And the question being proposed;

Mr. Speaker ruled the proposed amendment out of order in that it was either the equivalent to a negative of the main motion or it would approve the second reading of the Bill with certain conditions attached, or further that the amendment anticipated the Committee stage on the Bill.

From this ruling Mr. Drew appealed to the House.

And the question being put by Mr. Speaker: Shall the Ruling of the Chair be sustained?—it was decided in the affirmative on the following division:—

OF CANADA

OTTAWA, WEDNESDAY, 15TH APRIL, 1953.

PRAYERS.

Mr. Bradette, from the Standing Committee on External Affairs, presented the Second Report of the said Committee, as follows:—

On February 17, 1953, the House referred to your Committee for consideration, Items Nos. 85 to 104 inclusive, of the Main Estimates 1953-54.

Your Committee has held fifteen meetings, heard the Secretary of State for External Affairs and the following witnesses: Mr. L. D. Wilgress, Under-Secretary of State for External Affairs; Mr. R. M. Macdonnell, Assistant Under-Secretary of State for External Affairs; Mr. Jean Désy, Director General, International Service of the Canadian Broadcasting Corporation; and General A. G. L. McNaughton, Chairman, Canadian Section of the International Joint Commission.

Your Committee, having carefully considered the Main Estimates of the Department of External Affairs, approves them.

In the course of its enquiries, your Committee was pleased to note that considerable progress is being made under the Colombo Plan and through agencies of the United Nations to give aid, advice and technical training to the people of South and South East Asia. Your Committee recommends that the Canadian Government keep under continuous review the needs of the under-developed countries of South and South East Asia, so that Canada may continue to give every reasonable assistance to these deserving people.

Although the contributions to the United Nations budget by the Soviet Union and most of its satellites have been somewhat increased, your Committee recommends that the Canadian delegations to the General Assembly of the United Nations should continue to urge that the scale of assessment of those countries be brought in line with their ability to pay.

Your Committee further recommends:

1. That the Government continue to extend to the International Civil Aviation Organization all reasonable assistance in order to insure that its Headquarters be retained in Canada.

2. That the Government keep under review the issuance of Canadian passports to, and their holding and use by persons who travel to countries behind the Iron Curtain and whose loyalty appears to be divided between communism and our democratic way of life.

3. That the Government, Parliament and the Canadian people continue to give full and enthusiastic support to the United Nations and the North Atlantic Treaty Organization, in the firm belief that in such support lies the best hope of a peaceful solution of the acute and dangerous international problems of the day.

4. That this Committee, when constituted at a subsequent session of Parliament, be empowered to proceed with an exhaustive review of the United Nations Charter, with a view to submitting proposals to Parliament in connection with the revision of the Charter which is expected in 1955.

5. That a close liaison continue to be maintained between the International Service of the Canadian Broadcasting Corporation and the Department of External Affairs so that an appropriate and continuous policy will be followed in the broadcasting of messages to other lands.

6. That the costs of acquiring real estate for embassy or other purposes be kept under continuous review to ensure that proper value is received for moneys spent and to ascertain, in each instance, whether it is more economical to purchase or to lease property.

7. That the St. Lawrence waterway should be pressed to completion with every possible despatch.

The members of your Committee, rejoicing with all Canadians in the historic event which will take place in London on June 2nd next, express the sincere hope that the Coronation of our gracious Queen may prove to be an important milestone in the further strengthening of the bonds of our Commonwealth, which is recognized the world over as one of the major factors contributing to stability and world peace.

A copy of the Minutes of Proceedings and Evidence of the Committee is appended.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 6)

No. 90

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, TUESDAY, 21ST APRIL, 1953.

11 o'clock, a.m.

PRAYERS.

Mr. McCubbin, from the Special Committee appointed to consider Bill No. 107, An Act to amend the Post Office Act, presented the Third and Final Report of the said Committee, as follows:—

Your Committee wishes to report that, in accordance with the terms of reference, after completing discussion of Bill No. 107 to amend the Post Office Act, which was reported on March 19, 1953, consideration was given to problems relating to the administration and development of the Rural Mail Delivery Service.

Full scope was given for the discussion of this subject from all angles. Most of the representations made could be summarized as requests for extensions to existing Rural Mail Delivery Service. It was recognized in the discussion that this service chiefly concerns the rural population, particularly the farmers. The valuable contribution which farmers are making to the economic life of Canada was strongly emphasized.

It was also stressed that there were justifiable reasons to develop the Rural Mail Delivery Service from the viewpoint of helping to retain the farmers on the land. Figures were quoted to indicate the tendency to move away from the farm.

Certain members expressed the view that the postal service had not kept pace with comparable developments which had been made in other service facilities to rural areas and the view was expressed that developments should not be tied down to questions of finance.

The Committee recognizes that it is the policy of the Post Office Department to endeavour to live within its revenue so that there would be no added burden on the taxpayer, but, while commending this objective, it was felt additional funds should be provided, if necessary, to permit development.

After carefully studying the operational problems and financial implications, the Committee recommends that the officials of the Department be requested to give detailed study to the improvement of service in the rural areas as soon as financial and other relevant conditions permit. This study could reasonably be along the following lines:

1. Establishment of service to those householders who do not receive any service at the present time. This would involve the opening of additional post offices and the extension of mail routes to points which are not served at present.

2. Increased frequency. Many areas have mail service of semi-weekly, tri-weekly or less frequency, and it was considered that the frequency should be stepped up in many instances.

3. The desirability of a change in existing regulations governing rural mail service so that patrons who at the present time do not receive mail direct at their gateway but who have to travel to the main post road to erect their boxes can be given service direct to their gate.

The Committee was impressed with the ramifications and complexities of the problem relating to mail service, particularly the rural mail delivery, and wishes to place on record its appreciation of the assistance rendered by the officials of the Department who came prepared to supply all possible data and gave the Committee full information in a clear, concise and efficient manner.

A copy of the Committee's Minutes of Proceedings and Evidence is tabled herewith.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 7)

The Clerk informed the House of the unavoidable absence of Mr. Speaker, whereupon Mr. Beaudoin (Vaudreuil-Soulanges), Chairman of Committees, took the Chair as Deputy Speaker, pursuant to the Statute in that case made and provided.

PRAYERS.

Mr. Cleaver, from the Standing Committee on Banking and Commerce, presented the Sixth Report of the said Committee, as follows:

Your Committee has considered Bill No. 334, An Act to Provide for the Superannuation of Persons Employed in the Public Service of Canada, and has agreed to report the said Bill with amendments.

With respect to Clauses 2, 7 and 35 of the said Bill, as the amendments proposed thereto would result in an increased charge upon the public, your Committee is of the opinion that it has no option, under the Rules of the House and the terms of its Order of Reference, but to report the said Clauses without amendment. Your Committee would, however, recommend that the Government consider the advisability of amending the said Clauses as follows:

1. Clause 2, paragraph (p), by deleting the words and figures "31st day of March, 1947" and substituting therefor the words and figures *30th day of September, 1947*.

2. Clause 7, by deleting paragraph (b) of subclause (2) and substituting therefor the following:

(b) any period of service in the Public Service as a part-time employee unless it is service that may be counted under clause (B) of subparagraph (i) of paragraph (b) of subsection (1) of section 5.

3. Clause 35, by adding thereto the following subclause:

(8) Notwithstanding anything in this section, any person to whom subsection (5) applies may, in accordance with regulations of the Governor in Council,

- (a) make any election, exercise any option or do any other act contemplated by this Act as though that person were still employed in the Public Service, and
- (b) elect to retain or receive, in lieu of any other benefit payable to or in respect of that person under this Act, any benefit that has been or might have been granted to him under the Superannuation Act upon ceasing to be employed in the Public Service and upon so electing he is entitled to that benefit less any amount thereof that has previously been paid to him.

A copy of the evidence adduced thereon is appended hereto.

Your Committee has considered Bill No. 341, An Act to implement a Convention between Canada and the United States for the Preservation of the Halibut Fishery, and has agreed to report it without amendment.

A copy of the Minutes of Proceedings and Evidence of your Committee is appended.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 10)

Mr. Macdonald (Edmonton East), from the Standing Committee on Industrial Relations, presented the Second Report of the said Committee, as follows:

Your Committee has considered the subject-matter of Bill No. 2, "An Act to amend The Industrial Relations and Disputes Investigation Act. (Voluntary revocable check-off)", and has agreed to report as follows:

Your Committee endorses the principle of Bill No. 2 and recommends that the principle of the said Bill, together with the submissions included in the printed Minutes of Proceedings and Evidence of the Committee on the subject-matter of this Bill, be considered by the Government in its review and proposed revision of the provisions of The Industrial Relations and Disputes Investigation Act, which the Committee is informed is now under study.

A copy of the Minutes of Proceedings and Evidence of your Committee is appended.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 11)

Mr. Macdonald (Edmonton East), from the Standing Committee on Industrial Relations, presented the Third Report of the said Committee, as follows:

Pursuant to its Order of Reference of April 13, your Committee has considered Bill No. 100, An Act to Prevent Discrimination in regard to Employment and Membership in Trade Unions by reason of Race, National Origin, Colour or Religion, and has agreed to report it with amendments.

On motion of Mr. Weir, it was ordered,—That the name of Mr. Argue be substituted for that of Mr. Herridge on the Standing Committee on Agriculture and Colonization.

The Order being read for the second reading of Bill No. 339, An Act to amend The National Housing Act, 1944;

Mr. Winters moved,—That the said Bill be now read the second time.

And a Debate arising thereon;

Mr. Noseworthy, seconded by Mr. Knight, moved in amendment thereto: That the said Bill be not now read the second time but that it be resolved that in the opinion of this House consideration should be given to the introducing of legislation to amend the National Housing Act, 1944, to permit:

- (1) CMHC to issue loans directly to the builder at an interest rate of 2%;
- (2) CMHC to subsidize public housing authorities in order that rents may be brought into line with the financial means of low-income dwellers;
- (3) CMHC to enter the field of housing construction to build low-rental housing projects where such projects are needed but are not being constructed.

And the question being proposed;

Mr. Speaker ruled that paragraphs (2) and (3) of the proposed amendment were out of order in that they dealt with certain matters which were already provided for in the main Act, the National Housing Act, 1944, and, since an amendment can not be partly in order and partly out of order, the amendment itself therefore was not in order. Further, as paragraph (1) of the amendment dealt with a matter not relevant to or within the scope of the amending Bill now before the House, it also was out of order.

And the Debate continuing on the main motion;

5 P.M.

Your Committee is thankful for the valuable help it has received at all
times from the officials of the Department of Justice, namely: Messrs. A. A.
Moffat, Q.C., and A. J. MacLeod, Senior Advisory Counsel, in attendance
throughout; Mr. J. C. Martin, Q.C., former Counsel to the Royal Commission on
the revision of the Criminal Code; Dr. Louis Philippe Gendreau, Deputy Com-
missioner of Penitentiaries, in charge of Psychiatric and Medical Services in the
Penitentiaries; Miss R. Vogel, Private Secretary to the Minister of Justice, and
staff of the Committees Branch.

The clause by clause study of Bill 93 was in itself a tremendous task,
because as each clause of the Bill, in respect of which objections thereto or
representations thereon had been made, was reached, these objections and
representations were in all cases placed before the Committee for consideration.

At various times during the course of its work, the following matters
pertaining to the Criminal Law were directed to the attention of your Com-
mittee; namely:

- (a) The Defence of Insanity.
- (b) Capital Punishment.
- (c) Corporal Punishment.
- (d) Lotteries.

Although these matters are well within the scope of the Terms of Refer-
ence, your Committee is of opinion that these questions are of such paramount
importance that they could and should not be dealt with merely as incidentals
to the consolidation or revision of the present Criminal Code embodied in Bill 93.

The Committee upon the material before it was not prepared to recommend a change in the present law respecting the defence of insanity, lotteries and the imposition of punishment by whipping and by sentence of death, but unanimously has come to the conclusion, and so recommends, that the Governor General in Council give consideration to the appointment of a Royal Commission, or to the submission to Parliament of a proposal to set up a Joint Parliamentary Committee of the Senate and the House of Commons, which said Royal Commission or Joint Parliamentary Committee shall consider further and report upon the substance, and principles of these provisions of the law aforesaid, and shall recommend whether any of those provisions should be amended and, if so, shall recommend the nature of the amendments to be made.

The Order for Private and Public Bills having been disposed of;

Mr. Croll, from the Special Committee on Defence Expenditure, presented the Second and Final Report of the said Committee, as follows:

Your Committee was appointed by the following resolution of the House adopted on January 22, 1953:

"That a Select Committee be appointed to continue the examination of all expenditure of public moneys for National Defence and all commitments for expenditure for National Defence since March 31, 1950, and initially to give priority in their examination to the expenditures and commitments of the Canadian Army Works Services as dealt with in the Report of G. S. Currie, Esquire, Chartered Accountant, tabled in the House of Commons on December 15, 1952, and to report from time to time their observations and opinions thereon and in particular, what, if any, economies consistent with the execution of the policy decided by the government may be effected therein, with power to send for persons, papers and records and to examine witnesses; and that notwithstanding Standing Order 65, the Committee shall consist of twenty-six Members to be designated by the House at a later date."

The first meeting of your Committee was held on January 27, 1953, and twenty-six meetings were held subsequently for the hearing of evidence, the last on April 28, 1953.

Your Committee examined numerous witnesses including Brigadier W. J. Lawson, Judge Advocate General; Mr. E. B. Armstrong, Assistant Deputy Minister (Finance); Mr. B. B. Campbell, Assistant Deputy Minister (Real Estate Advisor); Mr. H. A. Davis, Superintendent, Engineering and Construction Requirements; Mr. J. A. Kidd, Chief Auditor from the Department of National Defence. In addition, the Committee examined Mr. George S. Currie of McDonald, Currie and Co., Chartered Accountants, Montreal; Mr. R. G. Johnson,

President and General Manager, Defence Construction (1951) Limited; Mr. Alphonse Ledoux, Lands Branch, Department of Transport; and Mr. D. B. Mansur, President and Chairman of Central Mortgage and Housing Corporation.

The witnesses were assisted by numerous other officials who attended the meetings as required.

The work of your Committee was assisted by a Sub-Committee on Agenda, consisting of the Chairman, Messrs. E. T. Applewhaite, W. M. Benidickson (Vice-Chairman), J. H. Dickey, D. M. Fleming, G. J. McIlraith, G. R. Pearkes, R. Thomas and P. E. Wright.

The Sub-Committee on Agenda recommended in its second report that after conclusion of evidence relating to Exhibit No. 1, the Committee proceed and inquire into:

1. Acquisition and leases—land and buildings at Esquimalt, Rocky Point and Gagetown by the Department of National Defence;
2. A general statement with particular reference to Penhold, Namao, Churchill, Cold Lake Esquimalt, Rocky Point and Gagetown by the President of Defence Construction Limited;
3. Married quarters program by President, Central Mortgage and Housing Corporation;

and that the Committee then inquire into expenditures for the production and acquisition of aircraft.

Topics also suggested were:

1. Armaments, Tanks, Ammunition, Guns and small arms
2. Naval Vessels
3. Operation Pinetree
4. Training Costs—All Services
5. Recruiting Costs
6. Soft Goods
7. Military Travelling Costs

Your Committee heard evidence which appears in the Minutes of Proceedings and Evidence.

In addition, your Committee received 85 documents which were printed in the minutes of proceedings as appendices. Your Committee also received a detailed analysis of the irregularities listed in Appendix "B" of the Currie Report.

All information requested by your Committee was made available by the Department of National Defence, Defence Production and appropriate Crown companies.

In one case your Committee voted not to call for reports ruled outside its terms of reference by the Chairman and in another case voted not to call for certain reports of the Chief Auditor of the Department of National Defence. Summaries of these Auditor's reports were tabled and the Chief Auditor gave evidence that they constituted a fair summary.

In accordance with the terms of the resolution of the House your Committee proceeded immediately to a consideration of the report made by Mr. G. S. Currie.

Mr. Currie was appointed by the Minister of National Defence to investigate deficiencies and other irregularities in the Canadian Army Works Services. He

made comprehensive general examinations of works companies and detachments at Petawawa, Toronto, London, Borden, Barriefield, Vancouver, Regina, Quebec, and Halifax. Only at Petawawa was it found that extensive irregularities had taken place. These resulted from collusion among the five senior personnel of the works company, making the conspiracy most difficult to detect.

Prior to Mr. Currie's appointment, the Minister of National Defence had caused to be instituted a thorough investigation by the R.C.M.P. and Provost Corps, which had been carried out with painstaking thoroughness and which had led to discovery of all the important irregularities and the recovery of by far the greater quantity of missing goods. As a result of this police investigation, ten civilians and five servicemen were prosecuted in the civilian courts, of whom eight civilians and four servicemen were convicted. In addition to the criminal charges, six servicemen were disciplined.

The total losses due to the thefts at Camp Petawawa after recoveries amounted to less than \$36,000.

Part one of Mr. Currie's report dealing with the irregularities at Petawawa was intended to be illustrative and was taken from R.C.M.P. and Provost Corps' reports. Some of the latter, as is often the case in the early stages of an investigation, subsequently proved to be incorrect.

The most important feature of Mr. Currie's task was to make recommendations from the point of view of security and accounting as to the methods to be adopted to correct the situation that he found to exist. The greater portion of the report is consequently devoted to the recommendations, general and more detailed, as to organization of the Army Works Services and methods of control of accounting and security.

Of the forty-four recommendations listed in the Currie Report, twenty-seven were in the process of being carried out prior to the making of the Report. Four were considered urgent by the Department and will be carried out as additional manpower becomes available. Eight involve additional manpower and money and will have to be the subject of further study. Three which do not involve additional manpower and money will also require further study and two are considered unsuitable by the Department for adoption at the present time.

Detailed consideration was given to Exhibit No. 1 to Mr. Currie's Report entitled: "Classified Summary of Accounting Irregularities found by the Chief Auditor of the Department of National Defence". These accounting irregularities did not involve dishonesty on the part of individuals.

The great majority of the accounting irregularities listed were found to be the result of failure to comply with the proper accounting and administrative procedures in strict accordance with the various regulations and instructions. These omissions had largely resulted from the urgency of Defence requirements following the outbreak of hostilities in Korea, the vastly increased volume of work due to Canadian commitments to NATO and the United Nations and the difficulty of securing adequate and well-trained staff. To some extent the importance of accomplishing the work had been placed ahead of the desirability of reaching administrative perfection.

The Department of National Defence was taking steps as rapidly as the necessary skilled personnel could be obtained to improve administration and accounting in the Army Works Services.

In November 1950 Defence Construction (1951) Limited took over from Canadian Commercial Corporation the administration of all contracts for new military construction. This involved 123 construction contracts having a total value of over \$43.2 millions.

On December 31, 1952, the programme had grown to 894 construction contracts having a total value of \$375.8 millions involving 172 sites with a total of 1,270 new buildings and other works. There were in addition 533 contracts for design, supervision, surveys, soil testing, miscellaneous and related services, to a total of \$13.7 millions.

The policy of publicly advertised competitive tenders was maintained by Defence Construction (1951) Limited. Exceptions were made to this policy only where this was desirable in the interests of security or economy or because of extreme military urgency.

The necessity in some cases of getting the work under way before detailed plans could be prepared and because of changing military commitments that could not always be anticipated had in some cases resulted in additional cost. Shortages of materials, particularly steel, and of labour in the construction industry had complicated the task.

Your Committee gave special consideration to projects at the following locations: Penhold, Namao, Churchill, Cold Lake and Rocky Point.

The construction programme in the face of a number of difficulties has been well conceived and carefully supervised and the public has received good value for its money.

The deliberations of your Committee have proved of constructive assistance to the Departments of National Defence and Defence Production in the administration of a large and complicated defence programme and have served as a constant reminder to those responsible of the degree to which economy must be achieved in the making of public expenditures.

A copy of the minutes of proceedings and evidence adduced is tabled herewith together with Exhibit No. 1 and a list of the appendices to the evidence.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 16)

A Message was received from the Senate informing this House that the Senate had passed the following Bills, without any amendment:

Bill No. 339, An Act to amend The National Housing Act, 1944.

Bill No. 363, An Act to authorize the provision of moneys to meet certain capital expenditures of the Canadian National Railways System during the calendar year 1953, and to authorize the guarantee by Her Majesty of certain securities to be issued by the Canadian National Railway Company.

Your Committee visited the office and laboratories of the Radioactivity Division, Mines Branch, Department of Mines and Technical Surveys, and while there heard evidence from the following:

Mr. R. J. Traill, Acting Director, assisted by various officials, all of the Mines Branch.

Your Committee finds that the programme in the field of Atomic Energy is well integrated and finds that the various parts of the programme are well managed and conducted.

CHALK RIVER PROJECT

Since April 1, 1952, the operation of the Chalk River Project in the field of atomic energy application has been carried on by the Crown Company, Atomic Energy of Canada Limited. This Crown Company, in addition to carrying out the Chalk River Project, has taken over the work formerly carried on by the Commercial Products Division of Eldorado Mining and Refining Limited which involves the handling and sale of radioactive isotopes and the Cobalt Beam Therapy Programme.

Your Committee confirms the opinion expressed in the Report of the 1949 Special Committee that the Chalk River Project is well and efficiently operated.

NRX Reactor

The NRX Reactor was brought into operation in 1947 and for five years has been the outstanding research reactor in the world due to its "high flux" and flexible design features. The experimental results obtained from NRX constitute a major contribution to atomic research. The previous Special Committee on Atomic Energy heard evidence to the effect that this reactor had a life-expectancy of perhaps five years after which time it would probably be necessary to write it off.

In December, 1952, due to an extraordinary combination of circumstances, this reactor developed leaks and had to be shut down. This provided Canada with the first opportunity anyone in the free world has had to examine a major atomic reactor internally after a sustained period of full-scale operation. It has been found possible to repair and rebuild this reactor and that it will not have to be written off but will be restored to service with improved operational and safety factors.

This accomplishment, together with the knowledge that it is scientifically and mechanically practicable to repair and rebuild a reactor, is a most significant development in the atomic energy field. Your Committee commends the outstanding work of all the scientific, technical and other personnel at the project for their remarkable achievement and wishes to commend especially the officers and men of the Industrial Operations Branch which carries the major responsibility for repairs.

NRU Reactor

The previous Special Committee recommended "that the Government undertake the expansion of the present facilities by the construction of an additional reactor and such research equipment as may be required". Your Committee finds that the additional reactor recommended in that report is under construction and is proceeding to completion in a very satisfactory manner.

The experience gained from the reconstruction of the NRX Reactor is providing invaluable information in the construction of the new and more powerful reactor, known as NRU. This will enable Canada to stay in the forefront of atomic energy development and research and to meet the growing demands in the industrial, medical and agricultural fields.

Atomic Power

From the evidence it is clear that the large-scale application of atomic power is closer at hand than had been expected when the previous Committee met. Your Committee notes with interest and approval that the Board of Directors of Atomic Energy of Canada Limited has on it several persons with an intimate knowledge of development, distribution, and economics of industrial power. Your Committee recommends that any possible development of atomic energy for industrial power be pressed forward with vigour.

RAW MATERIALS PROCUREMENT POLICY

Eldorado Mining and Refining Limited

Procurement of the raw material in the atomic energy development programme is handled through Eldorado Mining and Refining Limited. Your Committee, from evidence presented by the President, as well as the pictures shown, feels that the management of this company is good and that the policy with respect to the procurement of raw materials is a sound one. Your Committee regrets that it was not possible in the time available to visit the mining and refining operations of the Company, but from the information placed before it, considers the operations well handled.

UNIVERSITY RESEARCH GRANTS

Your Committee finds that the recommendations made by the previous Committee on Atomic Energy in 1949 have been carried out by the Atomic Energy Control Board in cooperation with the National Research Council. The Committee has noted with approval that these grants have been extended to the metallurgical and isotope development fields and recommends a continuation of the policy of awarding these grants.

DEPARTMENT OF MINES AND TECHNICAL SURVEYS

Radioactive Resources Division, Geological Survey of Canada

Your Committee finds that the work of the Radioactive Resources Division, Geological Survey of Canada, Department of Mines and Technical Surveys, is being hampered by a lack of adequate accommodation and your Committee recommends that the Government give immediate consideration to providing adequate accommodation for the important work being carried on by this Division.

Your Committee finds that this Division is losing an abnormally high proportion of its highly qualified scientific personnel due to the unsuitability of the salary and classification procedures in relation to scientific personnel and recommends that the Government give immediate consideration to the adoption of more flexible and suitable reclassification and promotion procedures.

The general excellence of the work being carried out by this Division and the *esprit de corps* of the staff, considering the conditions under which they are working, is outstanding.

Radioactivity Division, Mines Branch

Your Committee finds that the work of the Radioactivity Division, Mines Branch, Department of Mines and Technical Surveys, is being somewhat hampered by overcrowding. Your Committee recommends that the Government give immediate consideration to this problem.

Your Committee finds that this Division is also losing an abnormally high proportion of its highly qualified scientific personnel due to the unsuitability of the salary and classification procedures in relation to scientific personnel and recommends that the Government give immediate consideration to the adoption of more flexible and suitable reclassification and promotion procedures.

The general excellence of the work being carried out by this Division is also to be commended.

A copy of the printed Minutes of Proceedings and Evidence adduced, together with a list of documents tabled with your Committee, is appended.

Mr. Robinson, from the Special Committee on Broadcasting, presented the Fourth Report of the said Committee, as follows:

1. Your Committee was appointed by resolution of the House of Commons on Friday, March 20th, 1953, to consider the Annual Report of the Canadian Broadcasting Corporation and to review the policies and aims of the Corporation and its regulations, revenues, expenditures and development.

2. In the course of its deliberations your Committee has held 19 meetings, including a visit to the Corporation's facilities in Toronto.

3. Mr. A. Davidson Dunton, Chairman of the Board of Governors, outlined to your Committee the work of the Canadian Broadcasting Corporation and was examined thereon.

4. Submissions were presented by the following:

The Canadian Congress of Labour;
The Canadian Association of Broadcasters;
The Canadian Weekly Newspapers Association;
Radio Station CFRB, Toronto.

5. Written representations were received from various other persons and organizations.

6. Evidence was heard from Mr. G. C. W. Browne of the Department of Transport.

7. In accordance with an order of the House of Commons of April 22nd, 1953, your Committee gave consideration to Bill No. 340, An Act to Amend the Canadian Broadcasting Act, 1936, and agreed to report it without amendment, this having been the THIRD REPORT of your Committee and having been presented to the House on Wednesday, April 29th, 1953.

8. Your Committee considered the annual report of the Canadian Broadcasting Corporation for the year 1951-52. It also examined CBC officials regarding activities, policies, aims and development of the Corporation. It studied the revenues, expenditures and general finances of the Corporation for the year 1951-52, for the year 1952-53 as estimated, and as projected for 1953-54.

9. Your Committee was pleased to note evidence of general improvement in sound broadcasting programs during the past year. It is of the opinion that the Corporation should endeavour to maintain and still further improve and develop its sound broadcasting service. The extension of French language network service to Western Canada during the past year was a good development. The Committee noted with approval plans to improve coverage in several areas through the installation of more powerful transmitters. It recommends that the Corporation endeavour still further to provide for improved coverage in other outlying areas where national program service still cannot be heard adequately by listeners.

10. Your Committee considered the operations of the International Service. It also studied the estimates for the Service for the year 1953-54. It noted with approval the recent decision to add a Polish language service to the other European broadcasts. The Committee is of the opinion that the International Service is carrying out an important function particularly in view of the present international situation.

11. Your Committee was impressed by the developments in the television field since its last sittings in 1951. During the last 15 months, the CBC has trained production staffs at two different centres and two stations have been put into operation. The meeting in Toronto brought home to the Committee the expense, organization, skill and equipment needed to produce live television programs. The complicated operation was carried on with evident efficiency by a staff which exhibited youth, vitality and good training.

Your Committee is convinced that television is going to play a very important part in Canadian life and that it must be developed in such a way so as to be of benefit to Canadians as individuals and to this nation as a whole. It should be a means of developing the human resources of Canada in talent, ideas and new abilities. While it should naturally make available to Canadians suitable programs from outside Canada, it must in our national interest have a basis of programs produced by Canadians for Canadians.

Your Committee is aware that production of adequate television programs in Canada is not easy from an economic point of view. It is also aware that the distribution nationally of such programs in this country is costly. It does believe that the twin objectives of adequate production of Canadian programs, and of nation-wide distribution of them to join the different parts of the country together and to serve the greatest possible number of Canadians, can best be met by the development as soon as possible of a national television system in which both the CBC and privately owned stations play their part.

The Committee noted with approval plans for the development of CBC production centres in Vancouver, Winnipeg, Halifax and Ottawa, as well as Toronto and Montreal, and for the development of a national program service serving both CBC stations and the private stations to be established in other areas. The provision of the service of national programs to all private stations to be established should in itself assure at least a certain minimum Canadian content of programs on these stations, and should assist them in their operation. Through this form of "partnership" some national program service will be made available to many more Canadians through the privately owned stations, and at the same time privately owned stations will be assisted in their operations as well as having time for their own programming. In this way they will have a definite place in the national television system. The Committee trusts that

both the CBC and the private stations licensed will cooperate loyally in the challenging task of developing a nation-wide television service of which Canada can be proud.

12. The submissions made to your Committee, and which are noted above, produced the usual wide divergence of opinion on the important subjects of sound broadcasting and of television. Particular reference might perhaps be made to the submission of the Canadian Association of Broadcasters in view of the fact that the Committee devoted some time to a discussion of the views of the Association on the subject of regulation. The Committee detected a more reasonable approach to this subject than in former years in that the Association appeared to concede the necessity for regulation and co-ordination of broadcasting in Canada but suggested that such functions should be carried on by a "Separate Regulatory Body". The Committee was unable to study this subject with the care which it would appear to merit in the light of the continued interest which is expressed therein and which would be necessary in view of the concept of a national system with control vested in a single body responsible to Parliament, the Canadian Broadcasting Corporation.

13. Any documents above referred to, as filed with the Clerk of the Committee, are tabled herewith.

14. A copy of the Committee's Minutes of Proceedings and Evidence is appended hereto.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 18)

After which the Honourable the Deputy Governor General was pleased to close the Seventh Session of the Twenty-first Parliament of Canada with the following speech:—

Honourable Members of the Senate:

Members of the House of Commons:

It is anticipated that the session now concluding will be the final session of the twenty-first parliament.

During the life of this parliament the commonwealth and the world were saddened by the death of a great king.

Our young queen is already assured of the affectionate loyalty and devotion of the Canadian people, and of our deep attachment to the crown. The representatives of our country will leave in a few days to manifest those sentiments in the Coronation ceremonies. Coronation Day will be the occasion of universal rejoicing in Canada and throughout the commonwealth. At the present session you have enacted legislation to confirm the change in the royal style and titles agreed upon by the meeting of commonwealth prime ministers held in London in December last.

Since the present parliament was elected four years ago we have witnessed many important changes in our own country and in the world.

For the first time, the crown is represented in Canada by one of the sovereign's Canadian subjects.

This is the first parliament in which there have been members from the new province of Newfoundland. Four years ago the work of the Fathers of Confederation was completed and all Canadians rejoice in the success of the Union and the fine contribution the people of Newfoundland are making to the life of the nation.

One of the first achievements of this parliament was to vest the Supreme Court of Canada with jurisdiction as the final court of appeal for the Canadian nation.

This is the first parliament entrusted with the power to amend the Constitution of Canada here in Canada in matters which are exclusively of federal concern and at the last session this power was exercised to provide for an alteration in the rules for the readjustment of the representation in the House of Commons.

You have made provisions for separate representation of the Mackenzie District of the Northwest Territories in parliament; for elected members in the Northwest Territories Council, and for increased elected representation in the Yukon Council.

Special constitutional safeguards have been made to ensure the holding of federal general elections within the period prescribed by the British North America Act.

Three years ago, this parliament gave its approval to Canadian participation in the military intervention of the United Nations to resist Communist aggression in Korea. Since that time Canadian forces have shared in the collective effort to halt aggression and restore peace to that unhappy land. Apart from the South Koreans themselves, our forces have formed the third

largest contingent in the combined strength of the United Nations in Korea and they have fought with valour and distinction in conformity with our finest traditions. All Canadians recognize the magnitude of the sacrifice of those who have fought for the sake of peace in the cause of the United Nations and all have shared the anxieties of their families.

The military objective of the United Nations action in Korea has been substantially achieved. Having stopped the aggression, the United Nations has been making every effort to bring about an honourable armistice, so that the fighting may come to an end. Although this problem has not yet been solved, we rejoice in the steps taken to bring about a return of sick and wounded prisoners and we hope that the renewal of the armistice negotiations at Panmunjom will be the prelude to that peace for which the whole world prays.

On the Korean question, as on other issues, we have at all times been prepared to consider any genuine proposals to this end, for our sole aim is peace. But we must be convinced by deeds as well as words that there is a desire for a permanent and durable peace before it will be prudent or safe to slacken our preparations to maintain the strength necessary to deter aggression.

We have looked to the United Nations not only as an instrument of collective security but also as a means for extending human welfare. Through its programmes of technical assistance to under-developed countries, to which Canada has fully contributed, steps have been taken to increase world levels of production, to eradicate or reduce disease and illiteracy, and hunger over an ever widening area of the globe. Closely related to our participation in United Nations efforts in the field of technical, economic and social co-operation are the activities in which we have shared through participation in the Colombo Plan, which has provided a valuable demonstration of practical co-operation within the modern commonwealth.

The North Atlantic Treaty has been in force throughout the life of this parliament. The alliance of the Atlantic nations has proved its worth in lessening the risks of aggression in Europe by the build-up of an integrated force for the preservation of peace.

Our country has met promptly our obligations under the alliance. A formation from the Canadian Army is now part of the integrated forces in Europe. The build-up of the air division of the Royal Canadian Air Force is nearing completion. Canadian Naval strength is steadily increasing. We have made a substantial contribution through mutual aid to the armed strength of our European allies.

We have given attention, in the closest co-operation with the United States, to the direct defence needs of the North American continent and we are actively engaged in implementing joint plans to meet any attacks deemed possible on the scales presently envisaged by the military advisers of our two countries.

Other important steps toward world peace were taken during this period. The state of war with Germany was terminated by proclamation in 1951. Canada has since supported the association of the Federal German Republic, for the common defence, within the European Defence Community, and with the North Atlantic Treaty Organization. The Treaty of Peace with Japan was also signed in 1951, thus making possible the resumption of normal diplomatic relations with that country.

After the outbreak of hostilities in Korea my Ministers reluctantly recommended a measure to vest in the Governor in Council for one year certain powers which might be necessary to meet any unforeseen emergency. This legislation expressly reserves to parliament the control of expenditures and excludes any arbitrary power to arrest, detain, exclude or deport any person or to censor, control or suppress publications and writings, and contains provisions for review by parliament of the exercise of these emergency powers by the Governor in Council. Because hostilities have continued in Korea this emergency legislation has had to be renewed year by year.

The Veterans Charter has been kept under constant review and the appropriate statutes amended from time to time. Pension rates for disabled veterans, widows of veterans and their dependents have been increased substantially. War Veterans allowances have also been increased. At the present session you approved a measure designed to provide greater educational opportunities for children whose fathers died as a result of war service.

Canada's total trade with other nations has reached unprecedented levels. The removal of foreign exchange control and the high level of the Canadian dollar have demonstrated the basic strength of our national economy.

Through active participation in multilateral trade negotiations and by every other available means my Ministers have sought to make an effective contribution to the removal of obstacles to the free flow of world trade.

Productive investment has increased year by year. Inflation has been brought under control. The national debt has been reduced every year with a cumulative reduction in the dead weight of its carrying charges.

Production and national income have risen so substantially year by year that it has been possible to finance the vast increase in our defence effort and at the same time make substantial reduction in rates of taxation.

My Ministers have been concerned to promote this national development along lines designed to provide a fair share of the national income to all the various sectors of the Canadian economy.

Agricultural production and income have kept at high levels, despite some inevitable adjustments. To help reduce the impact of price changes, effective use has been made of price support legislation. Floor prices and governmental action on a large scale were essential to prevent great hardship in all parts of Canada resulting from the United States embargo on imports of Canadian livestock and meat following the outbreak of foot and mouth disease in the Province of Saskatchewan last year.

At the present session you approved Canadian participation in a new International Wheat Agreement and extended the life of the Canadian Wheat Board.

Great progress has been made in the long-term programme for federal assistance in the modernization of our fisheries. The International Convention for the High Seas Fisheries of the North Pacific Ocean has been approved and you have approved the renewal of the Halibut Treaty. Provision has been made for the insurance of fishermen's boats and certain gear.

Throughout the life of this parliament, employment has remained at a high level. Coverage under the Unemployment Insurance Act has been extended, benefits payable have been increased and supplementary benefits provided during winter months. At the present session you approved the payment of benefits to insured workers who while otherwise unemployed and entitled to benefit become incapacitated for work by reason of illness or injury.

Though parliamentary action was required to settle a dispute between the operators and employees of our railways in 1950, similar difficult situations threatened during the past year and were averted by the moderation and good spirit of both parties. The whole period has witnessed an increasingly good relationship between labour and management in industry generally.

Provision has been made for the insertion in all federal government contracts of clauses prohibiting discrimination on the part of the contractor against any person in regard to employment because of that person's race, national origin, colour or religion. You have approved a bill during the present session to make similar provisions in respect of employment upon or in connection with any work, undertaking or business that is within the legislative authority of the parliament of Canada.

The present parliament has completely revised the Indian Act providing inter alia for full voting privileges for Indians at their option. The Immigration Act has also been completely revised and substantial improvements have been made in the Canadian Citizenship Act. A large number of immigrants have come to Canada to make their homes and share in the development of our country.

From time to time you have made important amendments to the National Housing Act and there has been a notable expansion of house building under the manifold provisions of our national legislation.

A great advance in Social Security was made when this parliament enacted a measure to provide for the payment of pensions as a matter of right and without a means test to all Canadians with appropriate residential qualifications who have attained the age of seventy years; together with the complementary measures to share with the provinces in assistance to those in need between sixty-five and seventy years of age.

At the present session you have extended the National Health Programme inaugurated in 1948 under which health and hospital facilities have been greatly expanded all over Canada. The new grants which you have provided for maternal and child health services, for medical rehabilitation and for the extension of radiological and laboratory services will bring added facilities for better health to people in all parts of Canada, will give new hope to the disabled and will assure greater health protection to the Canadian mother and child.

The Penitentiaries Commission has introduced important reforms in the administration of our penal institutions with gratifying and promising results.

This parliament enacted legislation to provide for the construction of the Trans-Canada Highway in co-operation with the provincial governments.

To assist in our national development you also authorized the Canadian National Railways to construct a branch line from Sherridon to Lynn Lake in the Province of Manitoba and one between Terrace and Kitimat in the Province of British Columbia; as well as providing for federal assistance to the Pacific Great Eastern Railway to complete the line to Prince George. You approved a number of the recommendations of the Royal Commission on Transportation including provision for the maintenance as a national charge of the link in Northern Ontario between Eastern and Western Canada and the measure for the recapitalization of the Canadian National Railways.

You made provision for the construction of the Canso Causeway which is now under way and for ferry services from North Sydney to Port aux Basques and the terminal facilities at that Port, and a new ferry service between Yarmouth, Nova Scotia, and Bar Harbor, Maine.

You have also made financial provision for certain improvements to Vancouver Harbour and for engineering studies of that Harbour and other possible improvements to navigation on the Pacific Coast.

You have authorized the creation of a corporation to be known as "The St. Lawrence Seaway Authority" for the purpose of constructing, operating and maintaining, either alone or in co-operation with the United States, a deep waterway between Montreal and Lake Erie.

You also approved the agreement with the government of Ontario to make possible the development by Ontario, in co-operation with an appropriate agency in the United States, of hydro-electric power in the International Rapids section of the St. Lawrence River. The power project has been approved by the International Joint Commission and work on the seaway as well as on the power development can be started as soon as an agency is authorized in the United States to co-operate in the power development.

You approved the Niagara Diversion Treaty between Canada and the United States to provide for appropriate safeguards of the scenic beauty of this great waterfall and for the permanent diversion of additional water from the Niagara River for hydro-electric power development and the development is already under way.

You made provision for the development of the industrial and scientific uses of atomic energy through a new Crown Company known as Atomic Energy of Canada Limited.

You have enacted legislation for federal co-operation with the provincial governments in the conservation of our forest and water resources.

To safeguard the existence of a number of important communities, you have also made provision for assistance required to maintain certain gold mines and certain coal mines in production.

You have made the necessary provision to implement the national television policy with the objective of making television available as widely as possible across the country through co-operation between the Canadian Broadcasting Corporation and private stations; and to ensure an adequate Canadian content in television programmes.

You have also provided for the financing of sound broadcasting and television without licence fees for receiving sets.

You have approved a measure to define more clearly the functions of the National Film Board and simplify its administrative machinery.

You have approved the creation of a National Library, a site for the building has been chosen, and plans are now being prepared.

You have revised the National Gallery Act and the Board of Trustees has been expanded. You have also made provision for the payment of grants to universities and equivalent institutions of higher learning recognized and approved by the provincial authorities.

You have placed the Historic Sites and Monuments Board on a statutory basis and given encouragement to its activities and made provision for a monument to a former Canadian Prime Minister, Sir Robert Borden, to be erected on Parliament Hill.

You have provided for a unified and systematic procedure for the publishing and tabling in parliament of the regulations and orders made by the Governor in Council, Ministers of the Crown or other agencies authorized to make regulations having the force of law.

You have strengthened the legislation to prevent combines and price fixing in restraint of trade.

A measure has been enacted to place the Crown in substantially the same position as a private person with respect to liability for acts committed by its servants, for breach of duty arising out of ownership or occupation of property, and for salvage claims, and also to confer upon the provincial courts jurisdiction concurrent with that of the Exchequer Court of Canada to entertain certain classes of claims.

You have made provision for the renewal of Taxation Agreements with the provinces; and new agreements have been made with the governments of nine of the provinces.

You revised and greatly improved the legislation respecting the financial administration of the Government of Canada, the audit of public accounts and the financial control of crown companies.

At the present session you enacted a measure to regulate co-operative credit societies incorporated by parliament for the purpose of operating in more than one province.

You have approved revisions of the Civil Service Superannuation Act; the Food and Drugs Act; and the Trade Marks Legislation.

Legislation respecting payment to rural mail carriers has been revised.

Amendments were also made to the Farm Improvement Loans Act, the Prairie Farm Assistance Act, the Act to Protect the Coastal Fisheries, the Fisheries Research Board Act, the Prisons and Reformatories Act, the Canada Evidence Act, the Judges Act, the Canada Shipping Act, the Trans-Canada Air Lines Act, the Canadian Overseas Telecommunication Corporation Act, the Territorial Lands Act, the Trust Companies Act and the Loan Companies Act.

Amendment, Mr. Drew, That the Bill be not now read the second time but that it be resolved that in the opinion of this House consideration should be given to the introduction of legislation which would provide for the exemption of all municipal councils and school boards from the payment of excise taxes, including the 10 per cent sales tax, on purchases of machinery and other equipment, which taxes impose a particularly heavy burden on municipal taxpayers because of the government's continuing failure to introduce legislation providing for taxation of all government properties in municipalities on the same basis as that of ordinary municipal taxpayers; moved, 461, and debate interrupted, 462. Debate resumed, 465. Amendment ruled out of order on the ground that it was either the equivalent to a negative of the main motion or it would approve the motion for second reading with conditions attached, 466. Amendment, Mr. Macdonnell (Greenwood). That the bill be not now read the second time, but that it be resolved that in the opinion of this House consideration should be given to the introduction of legislation which would provide for the exemption of all municipal councils and school boards from the payment of excise taxes, including the 10 per cent sales tax, on all their purchases of machinery and other equipment; ruled out of order, 466. - See also *House of Commons*; also *Membership, changes in*; also *Speaker's Rulings*.

Speaker's Rulings:

1. Point of Order (Mr. Knowles)—that a proposed amendment to a motion to appoint a special committee on Defence Expenditure was out of order in that no notice had been given and also that the amendment was unnecessary because the power to send for persons, papers, etc., was included in the main motion, 123. Mr. Speaker ruled the point of order not well taken in that the amendment, if carried, would not empower the committee to do something it could otherwise not do, but it would direct the committee to consider certain matters which the committee might otherwise not do, and such instruction could be given at this time, 123.

Speaker's Rulings—(Continued)

2. Subamendment (Mr. Pearkes)—to a motion to appoint a special committee on Defence Expenditure, 126. Mr. Speaker ruled the said subamendment out of order in that it purported to strike out all the words of a proposed amendment and to add other words which were not relevant to the words to be struck out, and it further proposed that a G. S. Currie be authorized to continue an inquiry while the main motion proposed that a committee be set up to do certain things, 126.
3. Statement by Mr. Speaker *re* lack of provision under the Standing Orders or practice of the House, whereby written notice of amendments may be given, 127.
4. Motion (Mr. Argue)—to adjourn the House under Standing Order 31 to discuss question of the government's being influenced by the report of the Royal Commission on the South Saskatchewan River Project and thereby fail to undertake construction of the project: Mr. Speaker ruled proposed motion out of order on the ground that it was not a matter of urgency within the meaning of "urgency" under Standing Order 31, 153.
5. Point of Order (Mr. Winters)—that debate on irrigation policies was out of order on the motion for Mr. Speaker to leave the Chair for the House to go into Committee of the Whole to consider a resolution relating to the conservation of water resources: Mr. Deputy Speaker ruled that debate on irrigation policies, etc., was not relevant, 200. Ruling appealed and sustained, 200-1.
6. Amendment (Mr. Diefenbaker)—to motion for Mr. Deputy Speaker to leave the Chair for House in Committee of the Whole on a proposed resolution respecting the conservation of water resources, 201. Mr. Deputy Speaker ruled the proposed amendment out of order on the ground that it was not in order to amend the terms of the proposed resolution when the motion to go into Committee of the Whole was before the House, 201. Ruling appealed and sustained, 201-2.
7. Amendment (Mr. Drew)—to motion to refer subject-matter of a bill to a standing committee: Mr. Deputy Speaker ruled the proposed amendment out of order on the ground that it was not relevant to the motion before the House and, further, that it would be an enlargement of the subject-matter of the bill under consideration, 211-2.
8. The honourable member for Assiniboia (Mr. Argue) having risen to speak on an amendment to the motion for House to go into Committee of Supply: Mr. Speaker ruled that the member, having seconded a subamendment and having spoken in the debate thereon, spoke also to the amendment and accordingly the member could not speak again to the amendment, 232.
9. Point of order (Mr. Lesage)—that the member for Trois-Rivières (Mr. Balcer) was out of order in debating a question before the Courts in that the time for entering an appeal from the judgment had not expired, 314: Mr. Deputy Speaker ruled that a question decided by a Court, but open to an appeal, was not *sub judice*, 314.
10. Amendment (Mr. Herridge)—to motion for House to go into Committee of Supply; legislation should be introduced during present session to provide floor prices for agricultural products, etc., moved, 402: Mr. Speaker ruled the amendment out of order on the ground that, if carried, the government would have to consider it an order of the House involving an expenditure of money, 402.

Speaker's Rulings—(Concluded)

11. Points of order having arisen from time to time on the question of debating the motion: "That Mr. Speaker do now leave the Chair" for the House to resolve itself into Committee of the Whole on a proposed money resolution: Mr. Speaker ruled that in future no debate would be allowed on the motion, but the House would have the right to vote on the question, 419.
12. Amendment (Mr. Drew)—to the motion for second reading of Excise Tax Act, Amendment, Bill: That the said bill be not read a second time, but that it be resolved that consideration should be given to legislation to provide for the exemption of municipal boards from the payment of excise taxes, etc., moved, 465. Mr. Speaker ruled the amendment out of order as being either the equivalent to a negative of the main motion or it would approve of the motion for second reading of the bill with certain conditions attached, 466.
13. Amendment (Mr. Macdonnell)—to motion for second reading of the Excise Tax Act, Amendment, Bill: Mr. Speaker ruled the proposed amendment out of order in that it was either the equivalent of a negative of the main motion, or it would approve the second reading of the bill with certain conditions attached, or, further, that the amendment anticipated the committee stage of proceedings on the bill, 466. Ruling appealed and sustained, 466-7.
14. Amendment (Mr. Noseworthy)—to motion for second reading of Bill No. 339, An Act to amend the National Housing Act, moved, 568: Mr. Speaker ruled that paragraphs 2 and 3 of the amendment were out of order in that they dealt with certain matters already provided for in the main act, and since an amendment cannot be partly in order and partly out of order, the amendment therefore was out of order, 568.
15. Point of order raised by Mr. Fournier (Hull)—that copies of a bill not having been distributed debate on the motion for second reading thereof should not continue, 619. Mr. Speaker ruled point of order well taken, 619.

Mr. Speaker ruled the proposed amendment out of order on the ground that, if carried, the government would have to consider it as an Order of the House involving the expenditure of money, 402.

Supply and Ways and Means—(Continued)

22. By Mr. Drew: This House is of the opinion that immediate consideration should be given to a national policy under a system of free enterprise and in close association and collaboration with the provinces that will (a) promote and develop all the country's natural resources for the benefit of the people of every part of Canada; (b) protect and conserve our forest, mineral and other resources from undue depletion or exhaustion; (c) expand the use of our resources for industrial production in Canada and thus create greater opportunities for employment and advancement of all Canadians, 610. By Mr. Argue: That this House is of the opinion that consideration should be given to an increase of 25 cents in the initial payment for No. 1 Northern wheat basis in store Fort William/Port Arthur or Vancouver for the crop year beginning August 1, 1953, so that the said initial payment will be \$1.65 per bushel; moved and negatived, 629.
